About This Game

Shoot! Dodge! and... Get Hit!?

Ikaruga is a vertical shoot 'em up that features an unique polarity-switching gameplay.
Switch the ship's polarity and "get hit and absorb" enemy bullets!
Achieve High Score with the chain bonus!

Features

- The player ship, all enemies and bullets are black or white.
Player's polarity can be switched at will.
- Your ship can absorb enemy bullets of the same polarity.
Filled energy goes to fire powerful homing lasers! (Release Power)
- Defeat 3 enemies in a row of the same polarity and get the chain bonus!
Building up high scores feels like a puzzle game?
- Spectacular 3D graphics. Fast and smooth game play.
- 2 Players game (Local) and
Double Play Mode: You can play 2 Players game with one controller.

-
- 5 levels. Tactical level design and boss battles.
 - 3 difficulty levels: EASY, NORMAL, HARD.
Change your tactics depending on the difficulty.
 - 2 Game modes: ARCADE, PROTOTYPE (not hidden).
 - Replay data save is available.
You can also download them from the Leaderboards.
 - Vertical screen mode support.
You can also play the game like a side-scrolling shooter by rotating only the game screen.
 - Xbox360 controller, Keyboard and Mouse support.

Not as good as Touhou but still bretty good. Ikaruga is a funny game in my eyes. On one hand you might say it's too difficult and in some cases so difficult that's it's not fun to play. On another you could say that the heart pounding nature of it and brilliant soundtrack can keep your mind away from the difficulty and still have fun. So where do I stand, you ask? I'm somewhere in the middle, as a hater of overly difficult games, I can in fact prove that this game is stupidly difficult but as a fan of adrenaline filled, rockin soundtracked games. I can also say that this is one of the best soundtracks I've ever heard in a video game and it feels great to weave through bullets. I real like the game but can see I'ts glaring flaw. Great classic arcade shmup. Bought to support more of these. Radiant Slivergun next please.
